

**WORKSHOP ON PORNOGRAPHY, SEX ADDICTION & RECOVERY**

Pornography is the new plague negatively impacting individuals, married couples, youth, children and families. Pornography refers to the explicit representation of sexual activity in forms like print or film to stimulate erotic feelings. Snehalaya has conducted a research study on the prevalence of the problem and impact of pornography on family life and to come up with effective ways of helping families deal with this addiction.

We are organizing a workshop for counselors, helping professionals, teachers, parents and youth animators to enlighten them on how to help individuals cope and deal with the addiction to pornography, and to work towards prevention. The workshop will help you understand the stages of addiction to pornography and accompany the afflicted person to recovery.

**Date: Thursday, 27<sup>th</sup> August 2015**
